

IRIDIUM Antenna Cables

- ✓ Iridium GPS Antenna cables kit
- ✓ Iridium Passive Antenna Cables kit
- ✓ Iridium Active Antenna cables kit

Iridium GPS Cable

RST942
Iridium GPS Cable Kit 6m

RST942 GPS 6 metre (19 feet) antenna cable provides a flexible installation option for marine and transport installations and is pre-terminated with SMA male connectors.

Components

- SMA-M - SMA-M
- 1 x 6m LMR195 Ultra-flex cable

RST929
Iridium GPS Cable Kit 9m/29.5ft

Beam RST939 GPS 9 metre (29 feet) antenna cable provides a flexible installation option for marine and transport installations and is pre-terminated with SMA male connectors.

Components

- 1 x 9m LMR195 Ultra-flex cable
- SMA-M - SMA-M

RST923
Iridium GPS Cable Kit 12m/39.4ft

Beam RST936 Iridium 30 metre (98 feet) antenna cable provides the ability to run long distance installations for larger marine vessels and fixed installations and is pre-terminated with TNC male connectors.

Components

- 1 x 12m LMR240 Ultra-flex cable
SMA-M - SMA-M

IRIDIUM Passive Antenna

RST931

3m Iridium Passive Antenna Cable

RST931 Iridium 3 m (10 feet) antenna cable provides a flexible installation option for very compact installations, where a transceiver module is located close to the antenna and is pre-terminated with TNC male connectors

Components

- TNC-Male to TNC-Male.
- 1 x 3m Ultra-flex LMR240

RST932

6m Iridium Passive Antenna Cable

RST932 Iridium 6 m (19 feet) antenna cable provides a flexible installation option for very compact installations, where a transceiver module is located close to the antenna and is pre-terminated with TNC male connectors.

Components

- 1 x 6m Ultra-flex LMR240
- TNC-Male to TNC-Male.

RST936

30m Iridium Antenna for Large Marine and fixed installation

Beam RST936 Iridium 30 metre (98 feet) antenna cable provides the ability to run long distance installations for larger marine vessels and fixed installations and is pre-terminated with TNC male connectors.

Components

- TNC-Male to N-Male
- 2 x 0.5m Ultra-flex LMR240
- 1 x 29m LCF7850J
- N-Female to N-Female.

RST933

12m Iridium Antenna Cable

RST933 Iridium 12 metre (39 feet) antenna cable provides a flexible installation option for most marine or fixed site installations and is pre-terminated with TNC male connectors.

Components

- 1 x 1m Ultra-flex LMR240
- TNC-Male to N-Female
- 1 x 11m Ultra-flex LMR400
- TNC-Male to N-Male

RST935

20m Iridium Antenna for Marine and fixed site

RST935 Iridium 20 metre (65 feet) antenna cable provides the ability to run long distance installations for larger marine vessels and fixed installations and is pre-terminated with TNC male connectors.

Components

- TNC-Male to N-Male
- 1 x 19.5m LDF450
- 2 x 0.25m Ultra-flex LMR240
- N-Female to N-Female.

IRIDIUM Active Antenna

RST944

Iridium Active Cable Kit 23m

Beam RST944 23 metre (75.5 feet) active antenna cable provides a flexible installation option for all types of installations when used with the Active Iridium RST740 Antenna.

Components

- 1 x 1.5m Amp. lead
- 1 x 52m ultra-flex cable

Specifications

- Active Antenna Cable Loss:
11.5 - 13.5dB (total end to end loss)

(RST945)

Iridium Active Cable Kit 34m

Beam RST945 34 metre (111.5 feet) active antenna cable provides a flexible installation option for all types of installations When used with the Active Iridium Antenna (RST740).

Components

- 1 x 34m ultra-flex cable
- 1 x 1.5m Amp. Lead

Specifications

- Active Antenna Cable Loss:
11.5 - 13.5dB (total end to end loss)

RST946

Iridium Active Cable Kit 52m

Beam RST946 52 metre (171 feet) active antenna cable provides a flexible installation option for all types of installations When using the RST740 Active Iridium Antenna.

Components

- 1 x 1.5m/4.9' Amp. lead
- 1 x 52m ultra-flex cable

Specifications

- Active Antenna Cable Loss:
11.5 - 13.5dB (total end to end loss)

RST947

Iridium Active Cable Kit 75m

Beam RST947, 75 metre (246.1 feet) active antenna cable provides a flexible installation option for all types of installations when using the RST740 Active Iridium Antenna.

Iridium Cable Specification

- Cable Diameter 15mm
- Cable Length 69m
- Connector N - N

Iridium Fly Lead

- | | | |
|----------------|-----------|-----------|
| ▪ Cable Length | Adaptor 1 | Adaptor 2 |
| | 3m | 3m |
| Connector | N - N | N - TNC |

Amp Lead

- Cable Length 1.5m
- Connector TNC - TNC

RST948

Iridium Active Cable Kit 104m

Beam RST948, 104 metre (341.21 feet) active antenna cable provides a flexible installation option for all types of installations when using the Active Iridium Antenna (RST740).

Iridium Cable Specification

- Cable Diameter 28mm
- Cable Length 90m
- Connector N - N

Iridium Fly Lead

- | | | |
|----------------|-----------|-----------|
| ▪ Cable Length | Adaptor 1 | Adaptor 2 |
| | 7m | 7m |
| Connector | N - N | N - TNC |

Amp Lead

- Cable Length 1.5m
- Connector TNC - TNC
