### ► 9575 Extreme Li-Ion Rechargeable Battery

This standard capacity Iridium Extreme Li-Ion rechargeable battery provides Iridium Extreme users with up to 4 hours of talk time and up to 30 hours of standby time in full network coverage.

### ► 9575 Extreme Power Adapter

This adapter can be used to charge your Iridium 9575 Extreme Satellite Phone and connect to a USB data cable.

### ► 9575 Extreme Antenna Power Adapter

This adapter can be used to charge your Iridium 9575 Extreme Satellite Phone, connect to an antenna, and connect to a USB data cable.

► **Iridium Hands Free Headset**

This hands-free headset is plugged in Iridium 9575 Extreme phones or compatible docking stations for hands-free operations.

► **Iridium 9575 Extreme Travel Charger**

This Iridium Travel Charger provides rapid charge to Iridium 9575 Extreme battery via AC wall outlet.

► **Auto Accessory Adaptor**

Restores full battery power for Iridium Portable Phone operations from any operating vehicle.

► **Portable Solar Charger - 12 Watts**

This Portable Solar Charger use the latest "Thin-Film" solar technology to quickly and efficiently turn sunshine into electricity. Great for charging various electronic devices, including satellite and cell phones, GPS devices, laptops.

► **Iridium 9575 Extreme Mini USB Cable**

Iridium 9555 / 9575 Extreme USB to Mini USB Data Cable The Iridium USB-Mini Cable allows you to easily connect your Iridium satellite phone to your computer. Attach the mini USB connector to the mini USB port. Then connect the USB connector to your computer. Data or Internet access requires computer configuration. Get instructions from your service provider or from the CD-ROM that comes with your Iridium satellite phone.

► **Leather soft case for 9575 Extreme**

The Iridium 9575 Leather Holster is high quality leather case that helps protect your Iridium 9575 Satellite Phone and includes a handy clip that allows you to attach it to your belt.

► **Iridium 9575 Extreme CD User Tools CD ROM**

Contains all software and documentation required to install and configure Iridium World Data Services on your computer. Documentation includes user guides, troubleshooting guides and application notes. Sold separately or as part of the Data Kit.

► **Iridium 9575 Extreme User Guide**

► **Iridium Mobile Magnetic Mount Antenna (1,5mt. or 5mt.)**

This Iridium Mobile Antenna delivers improved reception over the standard Portable Auxiliary Antenna. Magnetic mounts are used to secure the antenna to large metallic surface such as a vehicle rooftop.

► **Iridium Vehicle Antenna**

This Iridium Vehicle Antenna delivers excellent satellite reception for outdoor applications. Magnetic mounts are used to secure the antenna to large metallic surface such as a vehicle rooftop or armor.

► **Iridium Fixed mast Antenna (U-bolt mount or threaded pipe version)**

Iridium fixed mast antenna can be used with all types of Iridium satellite phones, terminals and docking stations to deliver exceptional reception performance for permanent in-building or marine applications. Designed for free air operation (no ground plane).

► **Dual Mode Iridium / GPS Patch antenna**

Dual mode Iridium & GPS patch antenna, designed for asset monitoring applications. Dual mode patch antenna is supplied complete with bulkhead mount that enables it to be securely mounted without the connectors being exposed to the environment. Dual mode patch antenna is fitted with an SMA female connector for GPS and a TNC for Iridium and will work with all Beam tracking products or other Iridium / GPS based devices.

► **Iridium AccessPoint**

Combined with your Iridium Satellite Phone, Iridium AccessPoint creates a Wi-Fi hotspot, wherever you are in the world, enabling you to use your smartphone and/or laptop to check emails and stay connected to the office, or keep in touch with family and friends – anytime, anywhere. The AccessPoint works with both the Iridium 9575 Extreme and the Iridium 9555 Satellite Phones.

Note: All data calls are charged per minute via your Iridium Monthly or Prepaid Service Plan.

#### ► LiteDOCK Extreme

LiteDOCK Extreme is the ideal docking station for using the Iridium Extreme handset for various maritime, transport or fixed site applications.

The Iridium 9575 Extreme handset fits securely in the docking station with an easy click to lock mechanism that can be inserted and removed with a press of a button. It is purposely built to allow you to utilize the SOS emergency, with an inbuilt GPS coupling capability that allows you to connect an external GPS antenna to the dock. The Dock also allows you to use the side portable handsfree jack for voice calls.

The Iridium 9575 Extreme handset fits securely in the LiteDOCK, which features USB data port, phone charging, and integrated Iridium and GPS antenna, making it possible to keep all antenna cables and power permanently connected to the docking station, ready for use.

#### LiteDOCK Features

- . Iridium AxessPoint compatible
- . USB data Port
- . Purpose built cradle to hold Iridium Extreme handset
- . RAM - mounting system
- . Integrated GPS Antenna coupling to support external GPS antenna
- . 12V or 110/240V Input\*
- . Supports Voice & Data services
- . Supports external Iridium antenna
- . Supports SOS & tracking (via Extreme handset)
- . Easy & Convenient Installation
- . Universal Mounting Bracket
- . Fully Certified - Including ROHS
- . Charges Extreme handset
- . 24 month warranty

### ► PotsDOCK Extreme

PotsDOCK Extreme is a compact docking station specifically designed to support RJ11, Bluetooth and tracking. PotsDOCK allows the Iridium 9575 Extreme handset to be connected with an RJ11/POTS interface enabling standard corded, cordless or DECT handset connection or alternatively interfaced with a PABX system presenting standard ring, busy and dial tones like a standard phone network. PotsDOCK Extreme provides extra features such as Bluetooth for voice connectivity along with tracking and alert which can be configured to support periodic polling or emergency alert reporting.

The Iridium 9575 Extreme handset fits securely in the docking station with an easy click to lock mechanism that can be inserted and removed with a press of a button. It is purposely built to allow you to utilize the SOS emergency, with an inbuilt GPS coupling capability that allows you to connect an external GPS antenna to the dock. PotsDOCK also supports the use of an optional compact BEAM Privacy Handset that can be attached next to the PotsDOCK for added convenience if required.

The dock features phone charging, a USB connection for data connection, integrated antenna, data and power connection making it possible to keep all antenna cables and power permanently connected to the dock making it ready for use at all times.

#### Features

- . AxessPoint - Iridium AxessPoint compatible
- . PotsDOCK Extreme CRADLE
  - . Securely holds Iridium Extreme handset
  - . Robust design and construction
  - . Charges Iridium Extreme handset ready for use
  - . Integrated antenna connection, Iridium & GPS
  - . USB connectivity
- . POTS/RJ11
  - . Supports standard cordless & corded telephones (5 REN), PBX systems, Ring, busy & dial tones
- . TRACKING
- . PANIC/ALERTS
  - . Supports optional BEAM Privacy handset
  - . Auto answer when taken out of cup
- . INTEGRATED BLUETOOTH®
- . IN-BUILT RINGER
- . VOICE, DATA, SMS, SBD
- . PRIVACY HANDSET
- . INSTALLATION
  - . Supports 9 - 32V DC power input
  - . Flexible installation via universal mount
  - . Supplied with 100 - 240V AC pack included
- . Fully certified, Iridium, RoHS, CE, AS/EN60950

### ▶ DriveDOCK Extreme

DriveDOCK Extreme hands-free docking solution provides a high quality transport installation for the Iridium Extreme handset. The docking station has in-built echo cancelling and full duplex technologies to provide superior voice quality and professional hands-free or privacy calls for any vehicle or aircraft\*.

The Iridium 9575 Extreme handset fits securely in the dock, which features USB and serial data connectivity, phone charging and integrated antenna, data and power connection making it possible to keep all antenna cables and power permanently connected to the DriveDOCK ready for use. The Iridium 9575 Extreme handset fits securely in the docking station with an easy click to lock mechanism that can be inserted and removed with a press of a button. It is purposely built to allow you to utilize the SOS emergency button and the ear-piece jack whilst docked.

*\*Independent Aeronautical certification MUST be gained prior to installation.*

  - . Antenna, mic and speaker installed in a convenient location
- . QUALITY : 100% factory tested; Fully certified, Iridium, RoHS, CE, AS/EN60950

#### ► **PotsDOCK Extreme Covert Piracy Solution**

PotsDOCK Extreme Covert Piracy Solution is a complete bundled installation that provides an immediate contact/message under threat. The anti piracy solution ensure that communication is not broken down or lost when all power or communication equipment on board a vessel has been cut off or destroyed by pirates.

The unit' s GPS module provides pinpoint accuracy and enables tracking worldwide. Tracking and Instant messages can be sent via SMS or Short Burst Data. Tracking and Instant messages can be simply configured to tracking applications, SMS or email address as required.

Alert/Alarm messages can be easily activated on the unit or alternatively an additional alert button can be installed throughout the vessel to trigger and alert. Once configured the alert system is and will generate an alert message to the preset destination once triggered.

Alert can be triggered to continually send until the alert is cleared either remotely or locally in the unit. The back-up battery that comes with the package can last up to 20 hours on standby and/or 10 hours of talk time.

#### ► **Iridium Fax Adapter**

Iridium Fax Adapter allows faxes to be sent or received from a Group 3 fax machine located anywhere in the world, over the Iridium Network, to another Group 3 fax machine connected to the PSTN or an Iridium Satellite phone.

#### ► **Main Cable (to be used with Custom Cable Kit)**

To ensure the strongest possible signal while using Iridium equipment indoors, you must have the Fixed Mast Antenna in an optimal location. (NOTE: Main Cable Kit sold separately from the Custom Cable Kit)

#### ► **Iridium and GPS Antenna Cable**

The antenna extension cable is used to connect Iridium satellite phones and docking stations with an external antenna.
